Subject: Proposal for a Regulation of the European Parliament and of the Council on the European Border and Coast Guard and repealing Regulation (EC) No 2007/2004, Regulation (EC) No 863/2007 and Council Decision 2005/267/EC  
- Outcome of the European Parliament's first reading  
(Strasbourg, 4 to 7 July 2016)

---

### **I. INTRODUCTION**

The Rapporteur, Mr Artis PABRIKS (EPP - LV), presented a report consisting of 173 amendments (amendments 1-173) to the proposed Regulation, on behalf of the Committee on Civil Liberties, Justice and Home Affairs.

In accordance with the provisions of Article 294 of the TFEU and the joint declaration on practical arrangements for the codecision procedure <sup>1</sup>, a number of informal contacts have taken place between the Council, the European Parliament and the Commission with a view to reaching an agreement on this dossier at first reading, thereby avoiding the need for second reading and conciliation.

---

<sup>1</sup> OJ C 145, 30.6.2007, p. 5.

In this context, the chair of the Committee on Civil Liberties, Justice and Home Affairs, Mr Claude MORAES (S & D - UK) presented one compromise amendment (amendment 179). This amendment had been agreed during the informal contacts referred to above.

In addition, four further amendments (amendments 174-177) were tabled by the ENF political group and a group of 40 Members, mainly from the Greens/ EFA and GEU/ NGL political groups, proposed one amendment (amendment 178), which aimed at rejecting the Commission proposal

## II. VOTE

When it voted on 6 July 2016, the plenary adopted the compromise amendment (amendment 179) to the proposal for a Regulation. No other amendment was adopted.

The Commission's proposal as thus amended and the legislative resolution constitute the European Parliament's position at first reading. It reflects what had been previously agreed between the three institutions.

The Council should therefore be in a position to approve the position of the European Parliament, once the Legal / Linguistic Experts have examined the text. The legislative act would then be adopted in the wording which corresponds to the position of the Parliament at first reading <sup>2</sup>.

---

<sup>2</sup> The text of the amendment adopted and the European Parliament's legislative resolution are set out in the Annex. The amendment is presented in the form of a consolidated text, where changes to the Commission's proposal are highlighted in *bold and italics*. The symbol "■" indicates deleted text.

<sup>5</sup> Position of the European Parliament of 6 July 2016.

Whereas:

- (1) On 25 and 26 June 2015<sup>6</sup>, the European Council called for wider efforts in resolving the *unprecedented migratory flows* in a comprehensive manner, including through the reinforcement of the management of borders to better manage growing mixed migratory flows. Furthermore, on 23 September 2015<sup>7</sup>, the European Council stressed the need to tackle the dramatic situation at the external borders as well as to strengthen the controls at those borders, notably through additional resources for the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, the European Asylum Support Office and Europol, with human resources and technical contributions from Member States.

---

<sup>6</sup> Meeting of the European Council, Conclusions of 25 and 26 June 2015.

<sup>7</sup> Informal meeting of EU Heads of State or Government on migration, Statement of 23 September 2015.

- (2) The objective of Union policy in the field of external border management is to develop and implement European integrated border management at national and Union level, which is a necessary corollary to the free movement of persons within the Union and is a fundamental component of an area of freedom, security and justice. European integrated border management is central to improving migration management, ***with a view to managing efficiently the crossing of the external borders, including addressing migratory challenges and potential future threats at those borders, thereby contributing to addressing serious crime with a cross-border dimension and to ensuring a high level of internal security within the Union, in full respect for fundamental rights, while safeguarding the free movement of persons therein.***

- (3) European integrated border management, based on the four-tier access model, comprises measures in third countries, such as under the common visa policy, measures with neighbouring third countries, border control measures at the external border itself as well as risk analysis, ■ measures within the *Schengen* area *and* return.
- (3a) ***When implementing European integrated border management, coherence with other policy objectives should be ensured including the proper functioning of cross-border transport.***
- (4) To ensure the effective implementation of the European integrated border management, a European Border and Coast Guard should be established ***and should be provided with the requisite financial and human resources and equipment.*** The European Border and Coast Guard, which comprises the European Border and Coast Guard Agency and national authorities which are responsible for border management, including coast guards to the extent that they carry out border control tasks, relies upon the common use of information, capabilities and systems at national level and the response of the European Border and Coast Guard Agency at Union level.

(5) European integrated border management ***should be implemented as*** a shared responsibility ***by*** the European Border and Coast Guard Agency and the national authorities responsible for border management, including coast guards to the extent that they carry out ***maritime border surveillance operations and any other*** border control tasks. While Member States retain the primary responsibility for the management of their **■** external borders in their interest and in the interest of all Member States **■**, the European Border and Coast Guard Agency should ***support*** the application of Union measures relating to the management of the external borders by reinforcing, assessing and coordinating the actions of Member States which implement those measures.

(5a) ***The European integrated border management does not alter the respective competences of the Commission and Member States in the customs area, in particular regarding controls, risk management and exchange of information.***

- (6) The development of the policy and legislation on external border control and return, ***including the development of a European Integrated Border Management strategy***, remains a responsibility of the Union institutions. Close coordination between the European Border and Coast Guard Agency and those institutions should be guaranteed.
- (7) The European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union, commonly referred to as Frontex, was established by Council Regulation (EC) No 2007/2004<sup>8</sup>. Since taking up its responsibilities on 1 May 2005, it has been successful in assisting Member States with implementing the operational aspects of external border management through joint operations and rapid border interventions, as well as risk analysis, information exchange, relations with third countries and the return of third-country nationals ***who are the subject of a return decision issued by a Member State***.

---

<sup>8</sup> Council Regulation (EC) No 2007/2004 of 26 October 2004 establishing a European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union (OJ L 349, 25.11.2004, p. 1).

- (8) ***It is necessary to monitor the crossing of the external borders efficiently, address migratory challenges and potential future threats*** at the external borders, ***ensure*** a high level of internal security within the Union, safeguard the functioning of the Schengen area ***and respect*** the overarching principle of solidarity. ***In light of this***, it is necessary to reinforce the management of the external borders by building on the work of Frontex and further ***developing*** it into an Agency with a shared responsibility for the management of the external borders.

- (9) The tasks of *the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union* should therefore be expanded and to reflect those changes, *while remaining the same legal personality, with full continuity in all its activities and procedures*, it should be renamed European Border and Coast Guard Agency (*the Agency*), *to be referred to as Frontex*. The key role of the Agency should be to establish an operational and technical strategy for the implementation of an integrated border management at Union level, to oversee the effective functioning of border control at the external borders, to provide increased operational and technical assistance to Member States through joint operations and rapid border interventions, ensure the practical execution of measures in case of a situation requiring urgent action at the external borders *and technical and operational assistance in the support of search and rescue operations for persons in distress at sea*, as well as to organise, coordinate and conduct return operations and return interventions.

- (9a) The Agency should carry out its tasks without prejudice to the responsibilities of the Member States with regard to the maintenance of law and order and the safeguarding of internal security.*
- (9b) The Agency should carry out its tasks without prejudice to the competence of the Member States with regard to defence.*
- (9c) The extended tasks and competence of the Agency should be balanced with strengthened fundamental rights safeguards and increased accountability.*
- (9d) Member States may continue cooperation at an operational level with other Member States and/or third countries at external borders, including military operations with a law enforcement purpose, to the extent this cooperation is compatible with the action of the Agency.*

- (10) The European Border and Coast Guard Agency relies on the cooperation of Member States to be able to perform its tasks effectively. In this respect, it is important for the Agency and the Member States to act in good faith and to have a timely and accurate exchange of information. *No Member State should be obliged to supply information the disclosure of which it considers contrary to the essential interests of its security.*
- (10a) *Member States should also, in their own interests and in the interests of other Member States, enter data into the European databases and ensure that the data are accurate, up-to-date and obtained and entered lawfully.*

- (11) The █ Agency should prepare general and tailored risk analysis based on a common integrated risk analysis model, to be applied by the Agency itself and by Member States. The █ Agency should, based also on information provided by Member States, provide adequate information █ covering all aspects relevant to European integrated border management, especially border control, return, irregular secondary movements of third country nationals within the Union, prevention of cross-border crime including facilitation of ***unauthorised border crossing***, trafficking in human beings, terrorism ***and threats of hybrid nature***, as well as the situation at neighbouring third countries, so as to allow for appropriate measures to be taken or to tackle identified threats and risks with a view to improving the integrated management of ***the*** external borders.

***(11a) Given its activity at the external borders, the Agency should contribute to preventing and detecting serious crime with a cross-border dimension, such as the migrant smuggling, trafficking in human beings and terrorism, where it is appropriate for it to act and where it has obtained relevant information through its activities. It should coordinate its activities with Europol as the agency responsible for supporting and strengthening Member States' actions and their cooperation in preventing and combating serious crime affecting two or more Member States. Cross-border crimes necessarily entail a cross-border dimension. Such a cross-border dimension is characterised by crimes linked to the unauthorised crossing of the external border, including trafficking in human beings or smuggling of migrants, where there is a direct link with the crossing of the external border notwithstanding the provisions of Article 1(2) of Council Directive 2002/90/EC which allow Member States not to impose sanctions where the aim of the behaviour is to provide humanitarian assistance to migrants.***

- (12) In a spirit of shared responsibility, the role of the █ Agency should be to regularly monitor the management of the external borders. The Agency should ensure proper and effective monitoring not only through risk analysis, information exchange and Eurosur, but also through presence of experts from its own staff in Member States. The Agency should therefore be able to deploy liaison officers to █ Member States for a period of time during which the liaison officer reports to the Executive Director. The report of the liaison officers should form part of the vulnerability assessment.
- (13) The █ Agency should carry out a vulnerability assessment, *based on objective criteria*, to assess the capacity *and readiness* of the Member States to face challenges at their external borders, including by assessing the equipment, *infrastructure, staff, budget* and *financial* resources of Member States as well as their contingency plans to address possible crises at the external borders. Member States should take *measures* to address any deficiencies identified in that assessment. The Executive Director █ should identify the measures to be taken *and recommend them to* the Member State concerned and should set a time-limit within which those measures should be taken. █ Where the necessary measures are not taken within the set time-limit, the matter needs to be referred to the Management Board for a further decision.

- (13a) *If the Agency is not provided with accurate and speedy information necessary for carrying out a vulnerability assessment, it may take that fact into account when performing the vulnerability assessment, unless duly justified reasons are provided for withholding the data.*
- (14) The █ Agency should organise the appropriate technical and operational assistance to Member States so as to reinforce their capacity to implement their obligations with regard to the control of the external borders, and to face challenges at the external border resulting from *illegal* immigration or cross-border crime *without prejudice to the national responsible authorities' competence to initiate criminal investigations*. In this respect, the █ Agency should, at the request of a Member State or on its own initiative, organise and coordinate joint operations for one or more Member States and deploy European Border and Coast Guard Teams as well as the necessary technical equipment, and it may deploy experts from its own staff.

- (15) In cases where there is a specific and disproportionate pressure at the external borders, the Agency should, at the request of a Member State or on its own initiative, organise and coordinate rapid border interventions and deploy European Border and Coast Guard Teams from a rapid *reaction* pool as well as technical equipment. Rapid border interventions should provide reinforcement *for a limited period of time* in situations where immediate response is required and where such an intervention would provide an effective response. To ensure the effective operation of such intervention, Member States should make border guards and other relevant staff available to the rapid *reaction* pool *and provide the necessary technical equipment. The Agency and the Member State concerned should agree upon an operational plan.*

- (16) *Where a Member State faces disproportionate migratory challenges at particular areas of its external border characterised by large influxes of mixed migratory flows* the Member States should be able to rely on the increased operational and technical reinforcement *in hotspot areas* by the migration management support teams composed of teams of experts deployed from Member States by the █ Agency and the European Asylum Support Office, and from Europol or other relevant Union Agencies, as well as experts from the staff of the █ Agency. The █ Agency should assist the Commission in the coordination among the different agencies on the ground.
- (16a) *Member States should ensure that those other authorities which are likely to receive applications for international protection such as the police, border guards, immigration authorities and personnel of detention facilities have the relevant information and that their personnel receive the necessary level of training which is appropriate to their tasks and responsibilities and instructions to inform applicants as to where and how applications for international protection may be lodged.*

*(16b) In hotspot areas the different agencies and Member States should operate within their respective mandates and powers. The Commission, in cooperation with the other relevant agencies, should ensure the compliance of activities in the hotspot areas with the relevant Union acquis, including the Common European Asylum System and fundamental rights.*

(17) In cases where a Member State does not take the necessary *measures* in line with the vulnerability assessment or in the event of disproportionate ■ pressure at the external borders *where a Member State has not requested the Agency for sufficient support or is not taking the necessary actions for the implementation of these measures*, rendering the control at the external border ineffective to an extent which risks putting in jeopardy the functioning of the Schengen area, a unified, rapid and effective response should be delivered at Union level. For *the purpose of mitigating these risks*, and to ensure better coordination at Union level, the Commission should identify *and propose to the Council* the measures to be implemented by the ■ Agency and require the Member State concerned to cooperate with the Agency in the implementation of those measures. *The implementing power to adopt such a decision should be conferred on the Council because of the potential politically-sensitive nature of the measures to be decided, often touching on national executive and enforcement powers.* The European Border and Coast Guard Agency should then determine the actions to be taken for the practical execution of the measures indicated in the *Council* decision, and an operational plan should be drawn up with the Member State concerned. *In case where a Member State does not comply within 30 days with this Council decision and does not cooperate with the Agency in the implementation of the measures contained in this decision, the Commission may trigger the application of the specific procedure where exceptional circumstances put the overall functioning of the area without internal border control at risk provided for in Article 29 of Regulation (EU) 2016/399. Therefore, Regulation (EU) 2016/399 should be amended accordingly.*

- (18) The █ Agency should have the necessary equipment and staff at its disposal to be deployed in joint operations or rapid border interventions. To this end, when launching rapid border interventions at the request of a Member State or in the context of a situation requiring urgent action, the █ Agency should be able to deploy European Border and Coast Guard Teams from a rapid *reaction* pool which should be a standing corps composed of █ border guards *and other relevant staff* in the Member States, which should amount to a minimum of 1 500. The deployment of the European Border and Coast Guard Teams from the rapid *reaction* pool should be immediately complemented by additional European Border and Coast Guard Teams *where necessary*.
- (18a) *Annex 1 sets out the contributions of Member States to this rapid reaction pool on the basis of pledges in light of the current circumstances. If those circumstances change substantially and structurally, including when a decision on the lifting of controls on their internal borders pursuant to the relevant provisions of the relevant Acts of Accession has been taken, the Commission should propose the appropriate amendments to this Annex.*

- (19) Having regard to the rapidity with which deployment of equipment and staff would need to take place in particular at areas of the external borders facing sudden large influxes of migratory flow, the █ Agency should also be able to deploy its own technical equipment which it should acquire itself or in co-ownership with a Member State. That technical equipment should be made available to the Agency upon its request. The █ Agency should also manage a pool of technical equipment provided by the Member States, based on the needs identified by the █ Agency and which should be completed by the means of transport and operating equipment purchased by Member States under the Specific Actions of the Internal Security Fund.
- (20) On *15* October 2015, the European Council called for enlarging the mandate of *Frontex on return to include the right to organize joint return operations on its own initiative, and enhance its role regarding the acquisition of travel documents for returnees.*

(21) The Agency should step up its assistance to Member States for returning third-country nationals, subject to the Union return policy and in compliance with Directive 2008/115/EC . In particular, it should coordinate and organise return operations from one or more Member States and it should organise and conduct return interventions to reinforce the return system of Member States requiring increased technical and operational assistance when complying with their obligation to return third-country nationals in accordance with that Directive.

*(21a) The Agency should provide the necessary assistance to Member States in organising joint return operations and return interventions of third country nationals who are the subject of return decisions issued by a Member State without entering into the merits of return decisions issued by the Member States, and in full respect for fundamental rights. In addition, the Agency should assist Member States in the acquisition of travel documents for return, in cooperation with the authorities of the relevant third countries.*

*(21b) The assistance to Member States in carrying out return procedures should include the provision of practical information on third countries of return relevant for the implementation of this Regulation, such as the provision of contact details or other logistical information necessary for the smooth conduct of return operations.*

*For the purposes of taking return decisions, the Agency should not be involved in the provision of information to Member States on third countries of return.*

*(21c) The possible existence of an arrangement between a Member State and a third country does not absolve the Agency or the Member States from their obligations under Union or international law, in particular as regards compliance with the principle of non-refoulement.*

- (22) The █ Agency should establish pools of forced return monitors, forced return experts and return specialists made available by Member States, who should be deployed during return operations and that should form part of tailor-made European Return Intervention Teams deployed in return interventions. *The pools should include staff with specific expertise in child protection.* The █ Agency should provide them with the necessary training.
- (22a) *In accordance with international law instruments like the UN Convention of the Rights of the Child, any individual below the age of 18 will be considered as a child under this Regulation. The child's best interests are to be a primary consideration in the activities of the Agency.*
- (22b) *Special provision should be made for staff involved in activities relating to returns to specify their tasks, powers and responsibilities. Special instructions should also be issued with regard to the power of the pilots in charge of aircraft and the extension of the criminal jurisdiction of the country of registration of the aircraft under international aviation law, in particular the Tokyo Convention on Offences and certain other acts committed on board aircraft.*

- (23) The █ Agency should develop specific training tools, *including specific training in the protection of children*, and it should provide training at Union level for national instructors of border guards and additional training and seminars related to *integrated border management tasks, including* for officers of the competent national bodies. *This should include training on relevant Union and international law, including on fundamental rights*. The Agency should be authorised to organise training activities in cooperation with Member States and third countries on their territory.
- (24) The █ Agency should monitor and contribute to the developments in research relevant for *European integrated border management* and it should disseminate this information to *the European Parliament*, the Member States, and to the Commission.
- (25) Effective implementation of an integrated management of the external borders necessitates regular, swift and reliable exchange of information among the Member States █. The █ Agency should develop and operate information systems facilitating such exchange in accordance with Union data protection legislation. *It is important that Member States provide the Agency promptly with complete and accurate information necessary for the Agency to perform its tasks.*

- (26) For the purpose of fulfilling its mission and to the extent required for the accomplishment of its tasks, the █ Agency may cooperate with Union institutions, bodies, offices and agencies as well as with international organisations in matters covered by this Regulation in the framework of working arrangements concluded in accordance with Union law and policy. Those working arrangements should receive the Commission's prior approval.
- (27) National authorities carrying out coast guard functions are responsible for a wide range of tasks, ***which may include*** maritime safety, security, search and rescue, border control, fisheries control, customs control, general law enforcement and environmental protection. The █ Agency, the European Fisheries Control Agency established by Council Regulation (EC) No 768/2005<sup>9</sup> and the European Maritime Safety Agency established by Regulation (EC) No 1406/2002 of the European Parliament and of the Council<sup>10</sup> should therefore strengthen their cooperation both with each other and with the national authorities carrying out coast guard functions to increase maritime situational awareness as well as to support coherent and cost-efficient action. ***Synergies between the various actors in the maritime environment should be in line with the European integrated border management and maritime security strategy.***

---

<sup>9</sup> Council Regulation (EC) No 768/2005 of 26 April 2005 establishing a Community Fisheries Control Agency and amending Regulation (EEC) No 2847/93 establishing a control system applicable to the common fisheries policy (OJ L 128, 21.5.2005, p. 1).

<sup>10</sup> Regulation (EC) No 1406/2002 of the European Parliament and of the Council of 27 June 2002 establishing a European Maritime Safety Agency (OJ L 208, 5.8.2002, p. 1).

*(27a) The implementation of this Regulation does not affect the division of competence between the Union and the Member States under the Union Treaties or the obligations of Member States under international conventions such as the United Nations Convention on the Law of the Sea, the International Convention for the Safety of Life at Sea, the International Convention on Maritime Search and Rescue, the International Convention for the Prevention of Pollution from Ships, the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers and other relevant maritime international instruments.*

- (28) The █ Agency should facilitate and encourage *technical and* operational cooperation between Member States and third countries in the framework of the external relations policy of the Union, including by coordinating operational cooperation between Member States and third countries in the field of management of *the* external borders and by deploying liaison officers to third countries, as well as by cooperating with the authorities of third countries on return, including as regards the acquisition of travel documents. In their cooperation with third countries, the █ Agency and Member States should comply with *Union law, including with regard to the protection of fundamental rights and the principle of non-refoulement at all times and* also when the cooperation with third countries takes place on the territory of those countries. *In order to increase transparency and accountability, the Agency should report on cooperation with third countries in its annual report.*

*(28a) The European Border and Coast Guard and the Agency should fulfil their tasks in full respect for fundamental rights, in particular the Charter of Fundamental Rights of the European Union (the Charter), the European Convention for the Protection of Human Rights and Fundamental Freedoms, relevant international law, including the United Nations Convention on the Rights of the Child, the Convention on the Elimination of all Forms of Discrimination Against Women, the Convention Relating to the Status of Refugees and obligations related to access to international protection, in particular the principle of non-refoulement, the United Nations Convention on the Law of the Sea, the International Convention for the Safety of Life at Sea, and the International Convention on Maritime Search and Rescue. In accordance with Union law and those provisions the Agency should assist Member States in conducting search and rescue operations in order to protect and save lives whenever and wherever so required.*

- (28b) *Given the increased number of its tasks, the Agency should further develop and implement a strategy to monitor and ensure the protection of fundamental rights. To that end it should provide its Fundamental Rights Officer with adequate resources and staff corresponding to its mandate and size. The Fundamental Rights Officer should have access to all information necessary to fulfil her or his task. The Agency should use its role to actively promote the application of the Union acquis relating to the management of the external borders, including with regard to respect for fundamental rights and international protection.*
- (29) This Regulation respects the fundamental rights and observes the principles recognised by Articles 2 and 6 of the Treaty on European Union and reflected in the Charter of Fundamental Rights of the European Union. In particular, this Regulation seeks to ensure full respect for human dignity, the right to life, the right to liberty and security, the right to the protection of personal data, the right to access to asylum, the right to effective remedy, the rights of the child, the prohibition of torture and of inhuman or degrading treatment or punishment, the prohibition of trafficking in human beings, and to promote the application of the principles of non-discrimination and *non-refoulement*.

- (30) This Regulation establishes a complaint mechanism for the European Border and Coast Guard Agency, in cooperation with the Fundamental Rights Officer, to monitor and ensure the respect for fundamental rights in all the activities of the Agency. This should be an administrative mechanism whereby the Fundamental Rights Officer should be responsible for handling complaints received by the Agency in accordance with the right to good administration. The Fundamental Rights Officer should review the admissibility of a complaint, register admissible complaints, forward all registered complaints to the Executive Director, forward complaints concerning *members of the teams* to the home Member State and register the follow-up by the Agency or that Member State. ***The mechanism should be effective, ensuring that complaints are properly followed up. The complaint mechanism is without prejudice to access to administrative and judicial remedies and does not constitute a requirement for seeking such remedies.*** Criminal investigations should be conducted by the Member States. ***In order to increase transparency and accountability, the Agency should report on the complaints mechanism in its annual report, including the number of complaints received, the types of fundamental rights violation, the operation concerned and, where possible, the follow-up measures taken by the Agency and Member States.***

- █
- (32) The █ Agency should be independent as regards operational and technical matters and have legal, administrative and financial autonomy. To that end, it is necessary and appropriate that it should be a Union body having legal personality and exercising the implementing powers, which are conferred upon it by this Regulation.
- (33) The Commission and the Member States should be represented within a Management Board to exercise █ oversight over the █ Agency. The Board should, where possible, consist of the operational heads of the national services responsible for border guard management or their representatives. ***The parties represented in the Management Board should make efforts to limit turnover of their representatives, in order to ensure continuity of the board's work.*** This Board should be entrusted with the necessary powers to establish the budget, verify its execution, adopt the appropriate financial rules, establish transparent working procedures for decision making by the █ Agency and appoint the Executive Director and the Deputy Executive Director. The Agency should be governed and operated ***taking into account*** the principles of the common approach on Union decentralised agencies adopted on 19 July 2012 by the European Parliament, the Council and the European Commission.

- (34) In order to guarantee the autonomy of the █ Agency, it should be granted an autonomous budget whose revenue comes essentially from a contribution from the Union. The Union budgetary procedure should be applicable as far as the Union contribution and any other subsidies chargeable to the general budget of the European Union are concerned. The auditing of accounts should be undertaken by the Court of Auditors.
- (35) Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council<sup>11</sup> should apply without restriction to the █ Agency, which should accede to the Inter-institutional Agreement of 25 May 1999 between the European Parliament, the Council of the European Union and the Commission of the European Communities concerning internal investigations by the European Anti-Fraud Office (OLAF)<sup>12</sup>.
- (36) Regulation (EC) No 1049/2001 of the European Parliament and of the Council of 30 May 2001 regarding public access to European Parliament, Council and Commission documents<sup>13</sup> should apply to the █ Agency. ***The Agency should be as transparent as possible about its activities, without jeopardising the attainment of the objective of its operations. It should make public information on all of its activities, and should ensure that the public and any interested party are rapidly given information with regard to its work.***
